

"MY DEAR"

The Coor Sunset coloring a glass window
And passing cloud
The moment I've spend with you

Sea gulls flock together in my dream
The scene same as the other day

Being at your side always
I'd like to travel with you
Being at your side always
I'd like to call me
But you've gone far away

The murmuring on the shining Surface
And changing drop
The moment We've spend on Deck

Sea breaze feelin' softly on my cheek
The time same as the other day

Waiting for you, Dear, always
let me notice I love you
Waiting for you, Dear, always
I remember Hot kiss
But there Cold sea breaze

Being at your side always
I'd like to travel with you
Being at your side always
I'd like to call me Ah

Waiting for you, Dear, always
let me notice I love you
Waiting for you, Dear, always
I remember Hot kiss
But there Cold sea breaze
